VOLUME 6. CYNTHIANA, KY., THURSDAY, AUGUST 14, 1856. NUMBER 41.

A LETTER FROM MR. MILLFORD.

From the Cincinnati News.
The following is a letter from Millard Fillmore, addressed to a gentleman of this City, who does not wish his name made publick, but I am bound to let it out for publication:

BOSTON, N. Y., July 4th 1856.

—Sir.—At Sir! I have the honor to acknowledge the receipt of your friendly note of the 3d inst. together with the enclosed copy of the "Quarterly," containing the names of the candidates for Congress in advance, &c. I do not know whether you are in advance, or in arrears, but I hope to be in time for the election.

I accept the following of your kind and upright respects with cordial thanks, and will endeavor to make up for any delay in sending my reply.

—Yours very truly, Millard Fillmore.

DIDN'T WANT TO PAY HIS TAXES.—The Pennsylvania papers are ridiculing the idea of "Old Buck" being the "Favourite of Pennsylvania." They say that Pennsylvanians can have but little affection for a man, who, to avoid paying a few dollars' tax for State and common school purposes, denied being a citizen of the State while Secretary of State under Mr. Polk. They not only charge this, but pay it, by the following letter addressed to the County recorder of Lancaster:

Wilmington, Feb. 26, 1846.

Dear Sir.—I have received yours of the 12th, in which you informed me that, not knowing whether I could add my name to a list of Friends, you have assessed me at such a sum. I had supposed that you would have known that I had retired from the service nearly a year ago, and was a private citizen, a pensioner, & that my official rank no longer than a colonel would be of no avail. I trust that in another year I may again become a member of the Legislature, but that day is not yet come.

James Buchanan.

Mr. Dando, Esq.

You will find a man forfeit his State rank by becoming a temporary member of the House of Representatives. Washington is now a member of the Post Office Board, and has been a member of the State Board of Education. What would you think if such a body should consist of men who had been members of Congress?

—Yours very truly, Wm. C. Dando.

—Q. T. W.—I am sorry to inform you that the "Daily Spy" of New York has published a statement to the effect that the "American" party will nominate Gen. Scott for the Presidency. So far as I can learn, this is a mere fabrication.

Missouri Election.

St Louis, Friday, Aug 8.
As far as ascertained, the vote in the counties bound from, stands as follows:

Animal Instinct.

The most extraordinary exhibition of animal instinct that we have lately heard of, is that displayed by the dogs of Philadelphia in their devices to evade the operation of the dog law. A certain appropriation, it appears, is made each month for the dog catcher, who rush on their business as long as the appropriation lasts, but as soon as it is exhausted they suspend operations till the next month. The dogs understanding this stay within doors and keep their mouths tight shut till the fund runs out, and when that happens out comes every mouth of them, with universal howl, and for the balance of the month ranges the city, and with perfect impunity conducts himself just as suits his own caprices and convenience. It's a fact--so the people say.

HORRIBLE DEATH.--A San Francisco paper says, While Mr Dugan, proprietor of the Sacramento Hotel, between this place and Shasta, was working in his well on Monday last, the banks on either side caved in, covering the greater portion of his house. He sank rapidly and was finally lost sight of. Through the almost superhuman exertions, however, of a few of his neighbors, the cart was quickly thrown up and he again appeared, still alive and able to speak. He said in a voice loud enough for all to hear, "Work fast, boys, or I'll suffocate." They did all in their power to extricate Mr Dugan from his painful situation, but before they could do so another and a heavier slide of the earth went on him and completely buried him alive. His body was taken out on Tuesday morning.

A Kentuckian, who has recently traveled extensively in New York, states that the contest in that great State, for the Presidency, is unquestionably between Fillmore and Fremont, and that Buchanan has no chance whatever of carrying his home in fifty four of these counties. His defeat is assured.

In the Fifty District, seven counties give Woodson, American, for the half term, four hundred over Price; Bentonite.

Douglas, [Dem.] is about 650 behind Price.

The same counties in the same District gives Akers, American, 500 majority over Jacks in Dem.

The few returns from the Sixth District indicate that Phelps will be elected for another term.

Forty-one counties, including St Louis, elect twenty-one Americans, twenty Bentons, fifteen Democrats, and six Whigs to the House.

As far as heard from three Americans, three Democrats and two Bentons are elected to the Senate.

Mr. Fillmore's late accepting the endorsement of the United Americans has been published. He says:

"My position in the country is well known, admitting neither of disguise nor equivocation. I am the candidate of the American party, but I see nothing inconsistent with that position or dishonorable either to myself or those who may support me in receiving the votes of all those, who knowing my position, prefer to cast them for me, and I feel peculiarly flattered where it is done, as in your case, on the ground of my past official acts. I, therefore, accept the nomination so generously tendered by the Order of United Americans, and hope they may never have reason to regret this signal proof of confidence."

An Unexpected Reunion.

A Boston ship, while on her way home from a distant clime, spake an Eastern brig from the West Indies, in a critical condition. The captain of the brig was determined to stick to his vessel, yet he desired the commander of the ship to take off his wife, who was on board, and she, with great reluctance, parted from her husband, with the fear at her heart that she might never see him again. For the remainder of the voyage the wife was in a melancholy state of mind, constantly regretting that she ever left the side of her husband. In the mean time however, a New York vessel had fallen in with the wreck, and had taken off her husband, who, in consequence of favorable winds, reached New York in advance of the vessel due at Boston. He watched with great anxiety for the approach of the ship, which had been retarded on her voyage by contrary winds. At length the vessel was telegraphed, and the husband hastened to the port. The wife stood upon the deck of the approaching ship, when suddenly her eyes fell upon her husband, and the unexpected sight so much affected her that she fainted away, but was soon recovered, and joined her husband, both parties exhibiting great joy and gratitude at their unexpected reunion.

NAPOLIEN'S SWORD.

The sword worn by Napoleon Bonaparte at the battle of Marengo, Austria, in 1800 was purchased by the Emperor Nicholas in 1850, just half a century after that eventful and bloody battle, for the enormous sum of \$20,000 dol. To Nicholas, a sword worn by so distinguished a soldier, in a battle that lasted fourteen hours, and victory won on each side four times, in which sixty pieces of cannon were gloriously won and lost, and finally carried by the French, possessed a value in his eyes that could not be estimated in dollars and cents. It was purchased and placed among the other relics once possessed by Napoleon at different periods of his life, and collected by that distinguished Emperor. It is now away from the Government of these Germans in the Old World, and do you suppose I came here to help them establish the same Government here?--Besides, I owe all I am to Americans and my own industry. I receive my best patronage from Americans. I am treated by them as though I was one of them, and what will benefit them will equally secure my interests.

ARKANSAS.--The little news we have from Arkansas looks as if YELL (Amer.) had carried the State for Governor; but we have not enough returns to indicate the result--lb.

Belle Brittan, the Newport correspondent of the New York Mirror, says.

Ladies who go fishing should leave their hoops at home, as sitting on them on the rocks is as hard as setting on a gridiron.

John W. Greay, of Pennsylvania, has been appointed Governor of Kansas, in place of Wilson Shannon removed. He served in the Mexican war as Col. of a Pennsylvania regiment, has been postmaster, Judge and Mayor of San Francisco, and is said to be well qualified for the position to which he has been chosen.

Down on the Dutch.

Because the Foreigners have manifested a little independence by yielding to their natural inclinations in the support of Fremont, the Buchanan papers are inciting them for everything that is vile, corrupt and wicked. "They are sour grapes," now!--The Cleveland Planadealer (a leading Buchanan paper) is down upon the Germans with savage ferocity, as will be seen by the subjoined extract from that paper:

"These German immigrants are known as noisy, bodies and mischievous makers in every community where they reside. They were driven out of Germany in '48 for their chauvinism and middle-classness. They ignore the Bible and all revealed religion, believe in no future state of rewards and punishments, and act on the infidel motto, 'live while we live.' They aim at anarchy in politics, morals and religion, and are a curse to any country or community!--They hated to all forms of government and religion, such that they would willingly be disbandled themselves for the sake of seeing the Catholic and Protestant portion of their countrymen deprived of their votes. These half breed Germans. These Red-headed Republicans know it--and, notwithstanding all this, they are now ready to lick the hand that was raised to smite them! They are to their own country a disgrace, to themselves untrue, and to their friends ungrateful. They are educated fanatics, and have no other bond of union with the touts of this country than fanaticism. That they would glory in the dissolution of the Union we have no doubt, and that they are thinking what little influence they have into the disunion scale, is abundantly evident from their acts."

JOHN DUGAN.--A San Francisco paper says, While Mr Dugan, proprietor of the Sacramento Hotel, between this place and Shasta, was working in his well on Monday last, the banks on either side caved in, covering the greater portion of his house. He sank rapidly and was finally lost sight of. Through the almost superhuman exertions, however, of a few of his neighbors, the cart was quickly thrown up and he again appeared, still alive and able to speak. A. J. MORSE, Editor

American Nominations!

FOR PRESIDENT,
MILLARD FILLMORE,
OF NEW YORK.
FOR VICE-PRESIDENT,
ANDREW JACKSON DONELSON,
OF TENNESSEE.

DAN BRIGHAM.

Ambrotypist, will visit Cynthiana with his new Portable Ambrotype Room, about August 25th.

This Room is furnished with large side and Sky Light, which imparts to his pictures a clear, clean and natural color, obviating the defects found in old pictures taken by an ordinary light.

Those wishing to examine specimens or procure pictures that will remain unchanged by time, are cordially invited to give him a call. The sitting is reduced to about one third the time of the daguerreotype, and consequently pictures can be taken equally as well in cloudy as in clear weather.

In the Kentucky Age, of August 2d, was published a list of withdrawals from the American party in Pendleton county. Among them, we find the name of Samuel Anthrobus. This gentleman's brother called on us the other day, and authorized us to say that such was not the case, and that he is an enthusiastic American. What—

An I a soldier of the "Sage,"
A follower of old "Buck,"
No! I can vote for no such Nag,
As Tom and Jonny "Brock."

Fillmore will carry old Kentuck,
With triumph and with ease;
Whilst "Buck" can never win the prize,
For "Ten-Cents" gents, if you please.

A beautiful thought this, that we find in one of our exchanges:

"If there is a man who can eat his bread in peace with God and man, it is the man who has brought that bread out of the earth. It is candered by no fraud, it is wet with no tears, it is stained with no blood."

Professor Julius Caesar Hannibal truly remarks: I say unto you, verily a white neckcloth and two skinned eyes are no criterion to judge fellow mortal by. De seller dat displays de signal ob distressed in de trousers am often as hasty as he who combs his hair back, and wears a long tail.

The man who hoped to rid Philadelphia of tobacco by roundly chewing, smoking and snuffing the "vine weed," left town for Cape May last week, in company with the individual who has been trying to gulf down all of the fire-water. They are now trying to exhaust the Atlantic with a teaspoon.

The marriage of Prince Frederick William, of Prussia, with the Princess Royal, of England it is now stated, will take place on the 1st of September, 1857. Queen Victoria and Prince Albert are expected to visit Berlin in the latter part of the coming September to participate in the marriage ceremonies of Prince Louis and the Prince Regent of Baden.

The manufacture of watch-cases is carried on very extensively in Philadelphia. There are eleven firms engaged in the business, all of whom employ over three hundred hands, and turn out at least five hundred cases per week, at a cost of more than one million dollars annually. The gold manufactured into cases, weekly, does not amount to much less than \$14,000, over half a million of dollars a year.

John B. Brackenridge, who wounded young Leavenworth in a duel at Niagara Falls, is now one of the editors of the New Orleans Delta.

A gentleman named Mr. Strickland, who for twelve years had been an actor, has abandoned the stage for the pulpit, and preached at Dr. Baldwin's Church in East Troy on Saturday last.

A Schenectady editor, describing the effects of a squall on a canal boat, says: When the gale was at its highest the unfortunate craft kneeled to larboard, and the captain and another cask of whisky rolled overboard.

MORALS IN LOWELL.—One day, about two weeks since, no less than three infanticides were committed in the spindle city. The bodies were all seen floating in the Merrimac river, and one of them recovered.

FROM ILLINOIS.—A letter to the editor of the Mayville Eagle, from Fulton Co., Illinois, says:

"Politics runs high here. Fillmore stock is rising fast. The Democrats are Free-soilers here—yet strange to tell, they cannot vote for Fremont. Here and hereabouts, Fillmore will certainly get a Majority. It is my opinion that the State can be carried for him."

FACTS FOR THE PEOPLE. **Harrison County Elections!!**

As considerable noise has been made by the anti-American party of Harrison county, over what they call a victory, we have deemed it necessary to lay before our readers a few facts, with reference to the vote cast by the American party last year, [1855.] and this year, 1856.—We take the vote polled for Mr. Raymond, (Amer.) and Mr. Glave (Dem.) in each precinct last year, and we find that Mr. Raymonds' majority was 175. The total amount of votes cast in Harrison for Raymond last year, was 1072—the total amount for Glaves 902. In this

voted as many votes this year, as was polled last. And this is the "Redemption" crowded over so lustily by the Sags.

A Blue-light Federalist.

We are astonished more and more, at the dishonesty of the Foreigner, the longer we live, especially that portion of them, who declare themselves in favor of Buchanan, for President. The Irishman or Scotchman, who has a particle of principle about him, and understands what blue-light federalism is, will certainly abandon Mr. Buchanan and his party. He will never give any aid or assistance to place in power the man that endorsed the "Hartford Convention."

Let the foreigner inquire the cause of the war, in 1812. He will find that England in her proud and ostentatious manner, had declared, that an Englishman, Englishwoman or Scotswoman—having once been a subject was always a subject and that if any one of them was engaged in service under any other flag, except that of England, on the high Seas, lost his right to board those vessels wherever found, and by force of might make that Englishman, Irishman or Scotchman, serve on board of an English ship-of-war. Mr. Madison, then President of the United States, after enduring this insult to the American Flag, for a long time, declared war against this nation, who asserted she was the ruler of the Seas, and he forced the British Lion to waive pitifully for peace. But where now do we find that so called stanch, tried and true "democrat"—James Buchanan? the man that stands at the head of the anti-American party—the man who is asking for the suffrages of a free, intelligent and chivalrous people.—He opposed the people, and he opposed the administration, and traitor-like, excommunicated with, and endorsed the action of the "Hartford Convention." This convention was giving aid and comfort to the enemies of our country, and these who adhered and affiliated with these blue-light Federalists, have been denounced by every lover of his country, in terms as infamous, as was ever applied to the tories of the Revolution.

At Buena Vista Precinct, we have reason to believe from the figures that no imported vote was brought to bear upon us. Last year this precinct cast 129 votes for Raymond, and 90 for the opposition. This year it cast 129 for the opposition, and 97 votes for the Americans.

At Kentontown a change of 16 votes was made from the American party to the opposition. Last year we polled 77 votes, and the opposition 111; this year the opposition polled 132, and the Americans 61 votes.

At Cason's precinct we find the imported vote used upon us. Last year, the Americans cast 105 votes, and the opposition cast 108, giving them 3 majority. This year, the Americans cast 108 votes, three more votes than the year before, and the opposition polled 126 votes, eighteen more than they cast last year.

At Colemansville precinct, last year, the Americans cast 154 votes, and the opposition polled 132. This year the Americans polled 155 votes; while the anties cast 174, gaining 42 votes more, than they received last year. It will be observed, also, that the Americans cast one more vote this year, than last.

At Cason's precinct where the imported vote broke down the honest American majority.

At Claysville Precinct, in 1855, the Americans polled 181, and the opposition 132 vote. This year 188 votes were cast for the Americans, and 143 for the opposition.

At Rutland precinct last year, the Americans polled 92 votes, and the opposition cast 43; this year the Americans cast 78, and the opposition 79. Here we find foul play again. The Americans lost only 14 votes, and placed those on the side of the opposition for last year gives them the meager vote of 54, but leaves us in the majority ten voters. Again we ask the anties where those 25 votes came from, if they were not imported. A great many were never in the precinct before, and it would trouble the Assessor to find them now.

Lewisburg precinct last year cast 132 votes for the Americans, and 117 for the opposition. This year the vote has been increased on both sides, the American vote being 149, and the opposition 137.

Having shown the entire vote of each District in the county, in the canvass for 1855, when the Americans were in the majority 175 votes, we find that we lost in this canvass only 21 votes—21 votes less, were cast for Martin this year, than for Raymond last year. The anti-American party in 1855, had the very strongest men in the field against us that could be found in the State, and the fight was strictly on the square. The principles were able and warmly argued on both sides, yet all the votes that were mustered against us, did not number over 902. And when they cast every legal vote, they have in this county, they will find all the anti-American votes polled, can never go far above 902. At Casons' this year, 18 more votes were polled than there are voters in the precinct; and at Colemansville, 42 votes were cast, more than was ever known before. Kentontown district gave a larger vote for the opposition, by 11 votes, than heretofore. The opposition maugre much about the recusants from our party, but if they will look at the figures, they cannot count 50 votes in the county. Therefore, it will be seen by adding up the extra vote, polled at Casons, Colemansville and Kentontown, that 71 voters have been imported. And the reasons we offer for this assertion, is that the American party at these three precincts

polled as many votes this year, as was polled last. And this is the "Redemption" crowded over so lustily by the Sags.

Those "Facts" published in the last Age, about Fillmore, are the foulest lies we ever read. Nothing but a batch of old clothes, and mean whisky, could have perpetrated them.

We learn by telegraph, that those Shanghai Chickens of the Age, bad the "gaps."

Keep it Before the People!—Hereafter ten cent pieces shall no longer be called "pence"—or a "shilling"—but let old Buck have the honor of naming it—and let it be so called—"a Jimmy!" Let the Table of "Federal Money" be changed, and the next Governor of New York will be a member of the American party and a supporter of Fillmore and Donelson.

Assured.—The news so far is favorable to the Americans in Missouri. Whether Ewing (Amer.) is elected Governor, we won't shout till we are out of the odds.—bl.

FRANKLIN COUNTY REDEEMED!—We find the following cheering announcement in the Louisville Journal:

"A short time since a Sag-Nicht in the guise of an Old Line Wulg, succeeded in defeating the American candidate for county judge. We knew at the time that this result did not proceed from a decrease in the American spirit in that county, but from certain peculiar opinions of the American candidate upon other political questions.

"But witness how gallantly the Americans of old Franklin have come to the rescue at the election just passed. The American candidates for county officers have been elected by majorities ranging from 175 to 220. This will be admitted to be a glorious triumph, when it is remembered that the Sag-Nicht elected their county judge, but a few months since by near one hundred majority."

It was caused by the foreigner, and for his protection only, was it wag-ed.

And now these molasses mouthed demagogues—Buchanan men—ask the foreigner to vote for him for President. We think that no honest son of the Emerald Isle, will ever disgrace himself by voting for the man, who held out bluelights on the Sea coast, to guide an enemy against shoals and rocks, that they might succeed in crushing out the remnant of Republicanism, which was burning brilliantly in the hearts of the friends of the war of 1812.
